

TRIAL

Of Miss Nan Patterson Draws Big Crowd

FAIR DEFENDANT COLLAPSED IN THE TOMBS

Skeleton to be Taken Into the Court Room.

THE POLICE TESTIFIED TODAY

Upon Entering Court This Morning the Actress on Trial Showed Effect of the Strain.

New York, Nov. 22.—Evidence today in the trial of Nan Patterson, the actress, charged with the murder of Caesar Young, together with the statement by the prosecutor that the people would show that J. Morgan Smith, brother-in-law of the defendant, had purchased the revolver with which the shooting was done, indicates that the prosecution hopes to prove its case on two points: First, that Young, when he left the house the morning of the killing did not have in his possession a firearm, and second, that the revolver came into Miss Patterson's possession through Smith. The prosecutor also states that he will produce a witness to show that Smith was overheard to say to a woman on the night before the crime was committed that she must do it, and that the young woman replied: "I cannot do it. I won't do it, and you must do it yourself."

Miss Patterson passed a sleepless night in the Tombs. The scathing arraignment of the prosecutor and the sight of her lover's garments with the bullet hole stained with his life blood had been too much for her nerves and she collapsed in the Tombs.

Her face was pale and bloodless and looked almost chalky against the sombre setting of her black dress and veil as she came into the court this morning, and sat by her old father's side.

Miss Patterson was much perturbed at the gaze of the curious throng in the court room. When she reached her seat she turned and kissed her father. She did not raise her veil.

Rarely has a murder case in this city attracted such a morbid crowd to gain admittance.

The prosecution purposes bringing a skeleton in court to prove that Young could not have shot himself.

Police Sergeant Walter Norris was a witness today. He identified the revolver which Policeman Junior handed to him when he brought Miss Patterson into the station house. Witness said the revolver was then opened by the captain and it was found to contain three .38-caliber shells, one exploded shell and one empty chamber.

Captain Dennis Sweeney was sworn. He said that Sergeant Norris had handed to him a revolver about 11 o'clock on the day of the shooting. Sweeney said of questioning the defendant when she was brought to the police station. She said Young had shot himself.

Frederick E. Michaels, the cabman, who drove the hansom on the morning of the tragedy, recognized the defendant as one of his passengers, but could not identify the picture of Young as being that of the other passenger.

He said he heard no quarrelling and did not look into the cab to see what had happened, as his horse attempted to run away. He said the woman first asked that he drive to a drug store.

LATE WAR NEWS

Paris, Nov. 22.—Dispatches received here this morning indicated no fighting recently between the Russians and Japanese at Shakh river, except unimportant skirmishes.

Mukden, Nov. 22.—It is today definitely learned that the Japanese attack of Puttloff Hill, November 18, was undertaken by a local commander without orders. The attack was a bloody affair. The Japanese lost 100 men and 200 were wounded. The Japanese were mowed down by scores and forced to retreat. The Russians continue to shell the Japanese positions daily.

Washington, Nov. 22.—Consul General Fowler at Chefoo today cables that a Chinese cruiser has been ordered by its government to convey the officers and crew of the Russian cruiser Rastoropny to Shanghai.

The rice crop prospect in Japan is good. It is nearly 43,000,000 bushels in excess of the average crop of 200,000,000 bushels.

WIDOW RECEIVES LETTER SIGNED "W. G. TANNER"

Indicating That Husband May Be Alive.

However the Farn Hand in Jail at Zanesville Has Confessed to Tanner's Murder.

Philadelphia, Pa., Nov. 22.—After having heard that her husband was murdered in Ohio last August Mrs. Battie B. Tanner, of Camden, has just received a letter which would indicate that he is still alive. This was signed G. W. Tanner, and was posted in Cairo, Ill. Her husband's name was William G. Tanner, and she cannot now determine whether she is a widow and her six children are fatherless or not.

The strange letter would seem to permit of several deductions. Either there is in the Zanesville (Ohio) jail a man innocent of the charge of murder, for which he is now awaiting trial, or it is a clever ruse to clear this prisoner. Then, too, it may be that there is a scheme afoot to defraud the Government with stolen pension papers. Tanner was a veteran, and his wife is at present trying to get a widow's pension.

Wm. G. Tanner left Camden in 1896 when he was 64 years old. He was engaged in selling religious works, and his family heard from him only at long intervals. On August 30 last, Mrs. Tanner received a telegram stating that her husband had been murdered, nine miles from Zanesville, O.

Nathan Spencer was arrested on a charge of murder. Witnesses testified that they saw the two men together just before Tanner's death. A stout hickory club, with which the murder was done, was also traced to Spencer.

Knowing that her husband was entitled to a pension Mrs. Tanner wrote to Zanesville for his discharge papers. They had disappeared. Then she consulted a lawyer here, who has filed a widow's claim for her in Washington.

Zanesville, O., Nov. 22.—Spencer, the farm hand and alleged murderer of W. G. Tanner, confined in the jail here awaiting trial, has confessed to the crime. That he murdered some one is undisputed, and that his victim's name was W. G. Tanner is apparently thoroughly established. It is barely possible that there are two W. G. Tanners, but that question is not bothering the local authorities.

CHILDREN CREMATED LOCKED IN ROOM

Warrenton, Va., Nov. 22.—Three negro children, whose mother locked them in a room together were burned to death in a fire of incendiary origin today.

IN MACEDONIA

Elements Engaged in a War of Extremism—Remarkable Change in Six Months.

London, Nov. 22.—The Standard prints a long letter from Constantinople dealing with the situation in Macedonia. The writer says there has been a remarkable change in the last six months. Formerly it was a question of protecting the Christian population against violence, but now it has become one of intervention between various Christian elements. Since the policing of Macedonia has been taken out of Turkey's hands, the correspondent says, there have been recurring conflicts between rival nationalities, Bulgarians, Serbians and Greeks, accompanied by barbaric acts quite as bad as those with which the Turks were formerly reproached. The truth is, according to the Standard's correspondent, each of these Christian elements wants independence, and their hatred of each other exceeds their detestation of the Turks.

Unrest in Armenia.

London, Nov. 22.—A serious state of unrest continues in Armenia, where killing and looting prevail, according to intelligence received in London by the Bible Lands Missionary Aid society from Dr. Reynolds of the American board of missions. From Van, Dr. Reynolds says: "Both the political and economical conditions are very unsatisfactory. Poverty has greatly increased, business is pretty much at a standstill, and to crown all the revolutionaryists are so much in evidence that the people here are in constant fear lest another massacre be precipitated. At the beginning of September Van was brought to the very verge of massacre, and more recently an important village has been looted and burned, with 20 or more persons killed."

One of the largest gold nuggets ever found in Colorado was recently picked up at Snowstorm place in Park county, between Alma and Fairplay. It weighs 120 ounces and has a market value of \$2,000.

A DECLARATION FOR REFORM IS FORMULATED

Representatives Ask for Legislative Body.

Would Have a Parliament Elected by Popular Vote in Russia—Memorial Adopted.

St. Petersburg, Nov. 22.—The memorial adopted by zemstvo representatives reads as follows: "In order to secure the proper development of the life of the state and the people, it is imperatively necessary that there be regular participation of national representatives, sitting as an especially elected body, to make laws, regulate the revenue and expenditure and control the legality of the actions of the administration." This is the final form of the petition favoring election of a body, not merely to participate in legislation as at first reported, but to be entrusted with the framing of the laws of the empire. The meeting also adopted a declaration in favor of granting general amnesty to political offenders imprisoned or exiled by administrative order. This completed program, declaring the necessity of participation by the people in the government, was signed by 102 zemstvo presidents, including 80 presidents of provincial zemstvo committees out of 32 who had attended the meeting. The signatories also included five marshals of the nobility, the elections to which offices are also confirmed by the government.

The memorial will be presented within a couple of days to the minister of interior, Prince Sviatopolk-Mirsky, by a delegation composed of the most prominent participants in the meeting. The zemstvo will now proceed with the discussion of the remainder of the program, which, although it directly concerns zemstvo work, is of minor importance. It consists, first, of primary education; second, of the disorganization attendant on mobilization, a paper on which subject will be read by M. Stakhovitch, marshal of the nobility of Orel; third, relief measures for the families of those sent to war, and fourth, Red Cross work.

It was announced that the trial of the assassin of Minister of the Interior Plehve will begin on Dec. 13. Minister Plehve was assassinated on July 28 by means of a bomb thrown at his carriage while he was driving to the Baltic station in St. Petersburg to take a train for the palace at Peterhof.

Another Story.
London, Nov. 22.—The Daily Mail's Copenhagen correspondent recounts a story from a member of the crew of the Russian cruiser Aurora to the effect that Vice Admiral Rostevsky's flagship, Kniaz Suvaroff, mistaken in the fog off Dogger bank, bombarded the Aurora, whereupon the Aurora, signalling "We are being fired at," herself fired 350 shells at the British trawlers and the Russian fleet. This informant distinctly avers that there were two Russian torpedo boats with the first division of the Baltic squadron, to which the Aurora belonged.

Sinister Motive Alleged.
St. Petersburg, Nov. 22.—A special dispatch from Tien Tsin printed here, stating that the American consul at Chefoo has warned the state department at Washington of the imminence of the fall of Port Arthur, is received with considerable criticism, the allegation being made that the dispatch was prompted by a desire to help the Japanese war loan.

Japs Advancing.
Mukden, Nov. 22.—The Russian detachments occupying Da pass have retired before the Japanese column, 1,000 strong. The Japanese are reported to be advancing toward Sintsintin.

Favor Affiliation.
Philadelphia, Nov. 22.—The Philadelphia presbytery, by a vote of 82 to 46, decided in favor of the affiliation of the Cumberland Presbyterian church with the Presbyterian church of the United States. According to figures shown at the meeting, 73 of the 245 presbyteries in the Presbyterian church of the United States have voted in favor of affiliation and seven against. A two-thirds vote of the general assembly is necessary to carry the overture. In the Cumberland Presbyterian church 29 presbyteries have voted in favor of the proposition and 18 against.

English Lad Won.
New York, Nov. 22.—Spike Robinson of London, an English featherweight, fought nine rounds with Joe Adler, the Ghetto featherweight of South Brooklyn. Robinson knocked Adler out in the ninth round, breaking his nose and leaving him in such a state that it took 10 minutes to bring him back to consciousness.

Shot Himself.
San Francisco, Nov. 22.—Charles M. Cooper, 22, who recently came here from Aurora, Ill., to attend the Leland Stanford university, committed suicide by shooting. His body, with a bullet hole through the head, was found in Golden Gate park. No cause is known.

JAPAN

Sorry in Need of Money-- Goods at Half Price.

San Francisco, Nov. 22.—Japan is on the verge of bankruptcy, according to the conclusion of the customs officials here because of the enormous importation of Japanese merchandise at ruinously low prices. Japanese goods are selling 50 per cent less than asked less than a year ago, and all sales must be cash.

BELIEF

That Two Were Killed in That Chicago Auto Murder.

Chicago, Nov. 22.—The detectives working on the auto murder mystery have learned from farmers near Joliet that probably two persons were killed last Friday night in the affair. John Hennes says he heard shots which evidently killed Chaffeur Bates, John Seiler and Stephen Connors, living two miles distant, say they heard two shots prior to the time of those fired near Hennes' home. The latter men say they saw a scuffle participated in by three persons in the car.

SHOTS

Fired Into Stockade Said to Have Killed Seven Men.

Benton, Ill., Nov. 22.—One hundred shots were fired last night into the Litter mine stockade at Zeigler. Deputy United States Marshal Dowell is reported killed and six nonunion miners are said to have received wounds from which they died. Sheriff Stein and posse are on the way to the scene. All communication is cut off today.

DISPERSED

Was the Crowd Which Was Bent on Lynching Three Negroes at Lexington.

Lexington, Ky., Nov. 22.—The prospect of a mob which had formed on the outskirts of the city attacking the jail, in which Ed Taylor, Garfield Smith and John Taylor are confined, was so pronounced Monday night that County Judge Bullock advised that the militia be called out. Constables and deputy sheriffs to the number of 50 had already been put on guard at the jail and all the day police called for their beds to reinforce the night force. A mob of 300 that attempted to march on the jail was dispersed.

PLOT TO MURDER IS NOW ALLEGED

Cincinnati, O., Nov. 22.—A plot to murder is alleged by the Pinkerton detectives in connection with the killing of Samuel Weakley, a nonunion molder, on October 7, by Thomas Patton, alias Freiden, who is now under arrest. A union molder, Thomas Bracken, is also under arrest at Detroit as a result. The alleged plan was to frighten the strike breakers here.

IRON MOUNTAIN WRECK ONE KILLED MANY HURT

Hoxie, Ark., Nov. 22.—This morning an Iron Mountain railroad passenger ran into an extra freight at Swifton, in the dense smoke from forest fires. Fireman Harry Wells was killed, and a number of passengers and trainmen injured. Five passenger coaches and twenty loaded freight cars were burned.

QUIET ON ISTHMUS

Washington, Nov. 22.—Minister Barrett cables the State department today from Panama that everything is quiet on the isthmus. General Huertas has left Panama. The standing army was successfully disbanded.

MANY MILLIONS BEHIND THIS CHICAGO DEAL

Project is to Relieve Con- gestion.

Deal May Mean Diversion of Traffic from Surface to Tunnels—Clean Streets Promised.

Chicago, Nov. 22.—The Chicago Subway company, with a capital stock of \$50,000,000, and composed of men who represent 90 per cent of the railroads having Chicago terminals, was organized here and took over the \$20,000,000 company which has built 15 miles of freight tunnels under the city streets. The vast tonnage of the railroads represented by the financiers in the new corporation will be converted into the company's tunnels, which are already under every street in the business district of Chicago. Apparently in connection with the mammoth deal, Sir Ernest Cassel, the financial adviser of the King of England, was in Chicago with Jacob Schiff, head of the international banking house of Kuhn, Loeb & Co., who is heavily interested.

The deal is declared to mean the immediate diversion of traffic and freight from the streets to the tunnels; the transferring of all newspapers for out-of-town circulation to the early trains through the tunnels; for the transferring of mail between the main postoffice and the railroad stations and between railroads; for the letter boxes, to be so connected with the tunnels that when mail is dropped in the boxes the mail will drop down to the level of the tunnels and be taken immediately to the post-office; it provides a means for the transportation of freight and of handling it expeditiously without compelling the railroads to absorb high-priced property in the center of the city for the purposes, and freight yards can be moved out 10 or 15 miles and the freight transferred, and having the trains run into the passenger stations with electric locomotives and do away with over 80 per cent of all the smoke in the heart of the city.

Revolutionists Active.

Athens, Nov. 22.—Fresh revolutionary activity is reported in Macedonia. Two powerful bands are said to have appeared from Bulgaria under Bulgarian officers. The Turkish officials at Salonika, against the protest of consuls, opened mailed bags and searched for revolutionary letters.

Steamboat Founders.

Little Rock, Ark., Nov. 22.—News has been received here that the steamboat J. N. Harbin sank in the Arkansas river near Pine Bluff. No loss of life is reported. The vessel was built in 1895 at Pittsburg, Pa., and designed to be used as a freight boat.

Moody to Remain.

Washington, Nov. 22.—It was announced at the White House that Attorney General Moody has decided to remain in President Roosevelt's new cabinet.

BURGLARS BUSY IN KNOX COUNTY DURING NIGHT

Two Postoffice Safes are Cracked.

Thieves Escaping With \$800 Worth of Stamps and Money—There is No Clue.

Mt. Vernon, O., Nov. 22.—The drug store of Barris & Shaw at Danville, in which the postoffice is located, was entered by burglars last night. After robbing the tills of all their money the burglars blew open the safe with a charge of nitroglycerine and rifled it of its contents. The loss in money and stamps will amount to more than \$300. After completing their job the burglars stole a horse and buggy from C. B. Workman and drove to Howard, four miles west, where they broke into the postoffice at that place. They also blew the safe and made a big haul, securing \$350 in money and stamps. The stolen rig was found at Gambier this morning and it is believed that the cracksmen boarded a northbound Cleveland, Akron and Columbus train. There is not the slightest clue.

English Coast Swept.

HAD A TALK

With the President Upon His Return From Abyssinia—Ellis at the White House.

Washington, Nov. 22.—W. H. Ellis of New York, who took to King Menelik of Abyssinia the commercial treaty negotiated between that country and the United States, was at the White House and had a talk with President Roosevelt regarding his mission. The duty of carrying the treaty to King Menelik originally had been entrusted to Mr. Loomis, the brother of Assistant Secretary Loomis. Mr. Loomis, on leaving the United States, was accompanied by Mr. Ellis, who was journeying to Abyssinia on private business, and to the latter was delegated the mission undertaken by Mr. Loomis after the latter lost his life off the British coast.

GOV. FOLK

Has a Plurality in Missouri of 30,000. The Official Vote for Governor in That State.

Jefferson City, Mo., Nov. 22.—The official canvass of the vote cast at the recent election was begun by Secretary of State Cook under the direction of Governor Dockery. The vote for governor was cast up first and showed that Joseph W. Folk (Dem.) has a plurality of 30,000. The total vote was: Folk (Dem.), 326,552; Walbridge (Rep.), 296,552. The total vote is 44,746 short of that cast for governor four years ago. The official vote for the other gubernatorial candidates was as follows: Hill (Pro.), 5,591; Behrens (Socialist), 11,031; Aldridge (People's party), 2,801; White (Socialist Labor), 1,112. Folk's majority, 9,255.

MR. DERTHICK

Of the Ohio Grange Introduces a Resolution at the National Meeting in Portland.

Portland, Ore., Nov. 22.—Master F. A. Dertthick of the Ohio Grange, member of the national executive committee, introduced a resolution at the proceedings of the national body relative to the introduction of industrial education in country schools. The resolution was referred to the legislative committee. Governor N. J. Bach of New Hampshire, grand lecturer, introduced a resolution suggesting Indian corn as the national floral emblem of the order. The resolution was passed unanimously. The report of officers continued, all reports showing that the grange has taken strides during the past year.

Trouble at Stockyards.

Chicago, Nov. 22.—Trouble is brewing again at the stockyards between the butchers and the employers. The 54 butchers employed by the Hammond Packing company ceased work because of alleged discrimination against union workmen by the employers. It was announced by the officials of the butcher workmen's union that unless a satisfactory settlement of the difficulty is reached at once the members of the organization employed in the other packing plants in Chicago will be ordered on strike. According to the officers of the union, the same grievances exist in other plants.

DEBATE

At Federation Meeting Was Hot

A SOCIALIST RESOLUTION STIRS DELEGATES

Measure Amended and Was Finally Adopted.

TWO LEADERS CALLED TRAITORS

But the Convention Later Expressed Its Confidence in Samuel Gompers and Mitchell.

San Francisco, Nov. 22.—Samuel Gompers and John Mitchell were charged with being traitors to labor's cause during a fiery debate on a Socialist resolution which was introduced at a session of the American Federation of Labor. The resolution was fathered by Delegate Victor Berger of Milwaukee and reads as follows: "Whereas, the unprecedented concentration of wealth in the United States and the rapid development of the trusts in almost every branch of industry make it obvious that capitalism will soon reach its culmination point, and will have to make room for another phase of civilization; and whereas, it is evident that this nation is destined to take the lead in this grand struggle for better conditions and higher culture; therefore, be it resolved, that we hereby recommend to all organizations affiliated with the American Federation of Labor to have their members study the economic conditions; to have lectures upon these subjects in their lodge rooms, homes, and in meetings set apart for this purpose, and to do everything in their power for the enlightenment and intellectual advancement of the proletariat."

The resolution committee reported to the convention that it recommended the adoption of the measure with the exception of the clause following the first "whereas." A Socialist delegate arose and asked why the particular section should be expurgated. This opened the floodgates of oratory and vituperation. By an overwhelming vote the delegates then passed the resolution as recommended by the committee and expressed their confidence in John Mitchell and Samuel Gompers.

Max Hayes, who championed the Socialist doctrine, in a speech so aroused the galleries that they cheered him for several minutes. Feeling ran so high that John Mitchell rose in the convention and stated that unless Delegate Victor Berger of Milwaukee was able to prove his statement that he (Mitchell) had been a traitor to the workmen, he must stand before the eyes of all present a convicted liar. The trouble arose over a printed slip distributed to some delegates which charged Mr. Gompers and Mr. Mitchell with dining with President Eliot of Harvard. The article in question said the place at which the meal was eaten was an unfair house, and that President Eliot was the man who called the "scab" a hero. It bore the heading, "Are They Traitors?"

The reply of President Gompers was most bitter and impassioned. He admitted the attendance upon the dinner, but denied every inference drawn therefrom, and declared that as long as he was connected with the labor movement he would fight against politics being mixed with unionism. The convention voted unanimously in favor of the exclusion measure as introduced, providing for the exclusion of Japanese on lines similar to the exclusion of Chinese, under the existing law. Not only did the convention vote in favor of excluding these Mongolians from the mainland, but from every insular possession.

HUMOR

HE DIDN'T UNDERSTAND.

But Her Sweet Voice Satisfied Him

Nevertheless.

At the long distance phone:
Pretty Girl—How do you do?
Telephone R-r-r-r.

"I said, 'How do you do?'"

R-r-r-r.

"Didn't understand? Well, it was
nothing. Talk about something else. I
am so glad to hear your dear voice
again."

R-r-r-r.

"Want to know what it was I said
first? Why, it was nothing; just how—
no, no—h-o-w—understand that?"

R-r-r-r.

"Not h-o-r; h-o-w. How do you do?"

R-r-r-r.

"Don't get it? Well, it doesn't make
a bit of difference. How natural your
voice sounds, dearest! Do you miss
me?"

R-r-r-r.

"Honestly, it wasn't anything; just
what any one would say when they see
you after a long time. I simply inquired
conventionally after your health."

R-r-r-r.

"No, no; not heart. I hope that is in
my keeping."

R-r-r-r.

"My darling, I would make you under-
stand if I could, but I cannot. If it
were of any importance I would gladly
say it over and over again, but it isn't."

R-r-r-r.

"No, it wasn't something that I de-
cided it would be better for you not to
know. It was the merest common-
place."

R-r-r-r.

"Dearie, do you go out much and are
there many pretty girls in that town?
Your letters are so unsatisfactory. A
man's always are, aren't they?"

R-r-r-r.

"Indeed I do miss you. I cry myself
to sleep almost every night. The city
feels so empty."

R-r-r-r.

"I declare to you on my sacred hon-
or that it wasn't anything of impor-
tance. No, George hasn't been here
a single night. I gave him to under-
stand I wouldn't receive him."

R-r-r-r.

"I didn't say a word about him in
my first sentence. Indeed I didn't. I
never mentioned his name. I don't
care a thing in the world for him. All
I said was, 'How do you do? H-o-w
d-o-y-o-u-d-o?'"

R-r-r-r.

"I can't help it whether it sounded
like that or not. That is what I said."

R-r-r-r.

"The time is up? Why, I haven't
said half the things I meant to say to
you. Please write to me tomorrow,
and tell me what you do in the even-
ings and when you call on and when-
ever you miss me and whether you
will be able to come to Narragansett
while I am there—"

R-r-r-r.

"Indeed I didn't say anything except
'How do you do? Honest Injun
Goodby, dear. G-o-o-d-b-y-y.'" — Balti-

ANECDOTE ABOUT WALLACE.

Why One of the General's War Or-
ders Was Disobeyed.

"I was never so badly frightened
during my whole course as a soldier,"
said General Lew Wallace, the author
of "Ben-Hur," one night to a Washing-
ton representative of the Louisville
Courier-Journal, "as I was over an ex-
perience that befell me while encamp-
ed near Paducah, Ky. I was in com-
mand of a brigade, and we had been
after the 'Johnny Rebs' hot and
heavy. Several skirmish clashes had
occurred, but they were brave, game
fellows and fought back with might
and main on each occasion. One night
I made a feint to withdraw the troops
from a hill, intending to march back
and recapture the ground before day-
light and lead the enemy, who would
be expected to follow, right into our
ramparts unawares. The surroundings
were all such as to aid the project.
The maneuver was executed as I had
planned. In the gray dawn of the
morning I was seated in front of my
tent, when I was attracted by some
noise, and, facing about, saw the out-
line of a company marching up the
valley and headed in our direction.
The Johnnies thought I, and instantly
gave the command to fire. There was
not a movement nor the discharge of a
gun among all our men. Three times
I repeated the command, shouting at
last in my loudest and sternest voice,
"D-n it, why don't you fire?" At that
Captain Ross of the Eleventh Indiana
stepped forward and said, "General,
that company belongs to us." Day was
now breaking clearer, and as I strained
my eyes I saw that the company car-
ried the Union flag. Well, sir, I was
paralyzed with emotion. My blood ran
chill, or, rather, stood still and seemed
to freeze in my veins. Had my order
been obeyed the whole company would
have been wiped off the face of the
earth. It was a sensation I shall not
forget to my dying day and comes
back to me often than any other of
my army experiences.

"It happened in this way. In the com-
pany which came so near being butch-
ered not a man from the captain down
could speak or understand English.
They had joined one of the regiments
from Missouri and were Germans,
one and all. When the order was
given for the march and counter-
march they had no idea of what was
meant and lost the way coming back
or got separated from the detachment
in some manner I never knew about.
They were returning to camp when I
mistook them for rebels, and had it
not been that the sight of the men was
keener than my own it would have
been their last expedition."

TO TELL TEMPER BY RAYS.

Deep Red Means Passion; If Pink,
Goodness, Says London Physician.

The New York Herald publishes the
following from its London correspond-
ent:

Experiments numbering over 300,
conducted over a term of three years,
have convinced Dr. J. Henson Hooker
of Nottingham place, London, that
the rays emitted by the human body differ
in color according to the character and
temperament of the person, and he
gives the following curious particulars
in a letter to the London Lancet:

"The rays emanating from a very
passionate man have a deep red hue.
One whose keynote in life is to be good
and to do good throws off pink rays.
The ambitious man emits orange rays,
the deep thinker deep blue, the lover
of art and refined surroundings yellow,
an anxious, depressed person gray."

"One who leads a low, debased life
throws off muddy brown rays, a devo-
tional, good meaning person light blue,
a progressive minded one light green
and a physically or mentally ill one
dark green."

"I know perfectly well that these
statements will be received by many
with an amused smile of incredulity,
as many other so called discoveries at
first, but I also know perfectly well
that sooner or later they will become
accepted facts. Nor is there anything
remarkable or unreasonable in all this
when we consider that man has been
thousands of years (Max Muller is my
authority) in evolving his color sense
to its present point. There is no Sans-
krit word the meaning of which has
any reference to color. Xenophanes
knew of three colors of the rainbow
only. Some 15,000 or 20,000 years ago
man was only conscious of one color.
Later red and black were distinguished
and still later yellow and then green."

"As our senses become more refined
surely we shall evolve the power of de-
tecting more refined hues. We have
not yet reached the point of finality in
rays."

Innovation in Locomotives.

E. H. Harriman, the railroad presi-
dent, has ordered for use on the Union
and Southern Pacific system a locomo-
tive expected to make 100 to 120 miles
an hour and run from ocean to ocean
without a stop, says the Chicago Trib-
une. The locomotive is a fireless,
smokeless, waterless power house on
wheels. It needs no coal and throws
no sparks or cinders. Its builders say
it can carry enough fuel for a 3,000
mile run. Theoretically this has all
been figured out to a mathematical cer-
tainty, but it has yet to be practically
demonstrated. The new engine uses
a combination of compressed air, fuel,
oil and electric power and is an applica-
tion of the Diesel type of engine to
a locomotive. It is building at Provi-
dence, R. I. The Diesel engine, which
heretofore has been used only for sta-
tionary work, is to be made to drive
a dynamo, which will provide the elec-
trical power for the locomotive.

A Long Distance Marriage

By S. T. STERN

Copyright, 1904, by S. T. Stern

With most people the story ends
after the heart interest has been prop-
erly adjusted. Thus: Proposal, ac-
ceptance, tableau, finis.

In our case the situation reversed
itself. I had suggested to Veryl, fer-
vently, of course, that proper economy
would sanction the practice of send-
ing out her wedding invitations and
my own in the same envelopes. With
the money saved thereby I agreed to
purchase outright a ring—a gleaming,
glistening affair—with a large single
stone. To this day I do not know
whether she said yes. I have a vague
impression that she said nothing at all.
Presently I found myself seated by
her side holding her hand, which leads
me to suspect that some manner of af-
firmation must have greeted my pro-
posal. We were engaged. With that
our story starts. Thus: Proposal, ac-
ceptance, tableau, chapter one.

For the next few moments neither
of us spoke. We sat staring into the
open fire, quiet and deliciously happy.
Think of it—Veryl was mine, my very
own!

"Of what are you thinking, dear?"
said I at length.

"I am thinking of our wedding, John.
It will be splendid to be married in
England."

"England?"

"Of course," she replied. "Don't you
remember? Father is at Matlock, in
Derbyshire. When I last left him he
was excited from me a solemn promise
that I should never be married during
his lifetime unless in his presence. I
know, dear, it means a long trip for
both of us and the absence of a great
many of your friends from the cere-
mony. But dad has my promise, and it
must be kept. Why, John, you are
staring at me as though I had commit-
ted a crime. Don't—don't look at me
like that. Are you afraid of the ocean
voyage?"

"Not that, Veryl. The situation is
worse—far worse. My mother is no
longer young, and I am the last of
my line."

"The next scene will abide with me
to my dying day. A few clerk stood in
front of us and held out a long pen.
"Is Miss Veryl Preston at home?" I
asked.

"No, sir."

"Where is she?"

"She left for America last Thursday
with the general, her father. She said
something about being married over
there and planning a surprise for her
father."

Yes, we were married, after all. Veryl
cabled that she was coming back
at once after I had cabled my own
whereabouts. She insisted on being
married in England. I insisted on New
York. We compromised on New York.

Both Astonished.

A boy, apparently a newsboy, with
papers under his arm, was standing at
Eight and Market streets when a
man hurriedly approached, slipped a
paper from under the youngster's el-
bow, tossed a coin at him and then
boarded a passing car. Instead of ap-
pearing pleased at having made a sale
the supposed newsboy uttered a yell
and started up the street in pursuit of
the car, bawling "Stop thief!" at the
top of his voice. He caught the car at
Ninth street and rushed inside. "Gim-
me that!" he demanded, grabbing the
paper away from the man who had
taken it from him.

The boy swung off and walked away
before the astonished passenger had re-
covered his self possession. Then mat-
ters were reversed, for in his indigna-
tion the passenger alighted and started
after the boy. The latter made no at-
tempt to escape. "You young rascal!"
exclaimed the excited pursuer, collar-
ing the lad. "What do you mean by
taking that paper away after I bought
it?" "Bought nothing," said the boy de-
fiantly. "I ain't sellin' papers. You
want an' I've got me paper that I put
over the boss' pictures to keep 'em
clean. Look here!" And he turned the
pages back, revealing to the surprised
citizen several nice engravings stowed
in between the leaves. It developed
that the boy worked in an art store
and was on the way there with the
prints when the hasty individual mis-
took him for a newsboy and ran off
with about \$10 worth of art works.—

A Coat For A Word.

A poor man may possess a wit so
fine that it is capable of doing him a
great deal of service and then wait
a long time before an opportunity
comes for him to exercise it profitably.
This was the case with an elderly
tramp who was once intrusted, for
want of a better messenger, with an
errand to the Duke of Bedford.

"Well, you're a queer fellow," said
the duke on seeing him. "What is
your name?"

"My name is Russell, your grace."

The duke laughed heartily, for his
own name was Russell.

"And how about your coat of arms?"
asked the duke. "Is that the same as
the Duke of Bedford's?"

"Ah, your grace," said the man, "our
arms may be much the same, but I
fancy there's a slight difference in our
coats."

As this fact was only too apparent,
the duke sent for a good coat of his
own and gave it to the man.

Veryl grieved over both features. I
shared only half her sorrow.

As time went on Veryl became quite
reconciled to our marriage plan despite
the separation it involved. She is a
most unconventional little person at all
times, and the oddity of the arrange-
ment doubtless appealed to her strong-
ly. With me it was otherwise. The
glory of our engagement was quite
dimmed by the prospect of her depart-
ure for the other side. When she sailed
on the 1st day of June my grief was
abysmal. Mother has since assured me
that for three entire days I ate not a
morsel of food. My thoughts were
with a certain ocean grayhound speed-
ing over its Atlantic lane, and I read
and reread nothing but storm reports
and derelict statistics.

One Friday evening I found two
small trunks in our front hallway. The
maid informed me that they were there
by order of my mother. When she
came down for dinner that evening I
noted at once an air of suppressed ex-
citement about her, but I asked no
questions.

"Son," said she after we had seated
ourselves, "I bought your wedding
present today. See?"

Imagine my astonishment when she
held out for my inspection passage
tickets for Southampton by next day's
steamer.

"But, mother," I protested, "I cannot
leave you. I intend to keep my promise.
I know I am a selfish brute in act-
ing as I have been doing, but I cannot
help myself."

"Son," said my mother, "the Rodney
is safe in every way. I have seen her
captain, who is an old friend of your
father, and he assures me his boat is
perfectly seaworthy and that a trip at
this season of the year is a mere pleas-
ure jaunt. Yes, I am going with you.
We sail tomorrow morning. Don't hug
me like that! I go with you on one
condition."

"And that is?"

"That our departure be kept a secret
from Veryl. We must surprise her."

We had an uneventful trip. I re-
member very little of it. Some time
during the second day we passed a
lonely whale. He excited my sympa-
thy at the time. Somehow, somewhere,
we landed and took train for Lon-
don. We rushed through London in a
cab and found ourselves on another
train. As near as I can remember we
spent four months on that train, though
mother says it was nearer five
hours. Late that afternoon, she tells
me, we reached Matlock. We climbed a
long, steep hill and found ourselves in
front of a very large and very gloomy
hotel, bearing a gilt sign, "The Mat-
lock Arms."

The next scene will abide with me
to my dying day. A few clerk stood in
front of us and held out a long pen.
"Is Miss Veryl Preston at home?" I
asked.

"No, sir."

"Where is she?"

"She left for America last Thursday

The New Model Tri-Process

\$18.00

SEVEN CENTS A DAY

Running both burners wide open for 12 hours a day the cost will average the above named amount. It is impossible to state the cost exactly to a fraction of a cent, since with varying gas pressures, imperfect plumbing, uncertain gas meters, the conditions under which the stove is used are different, so that we give the maximum amount that it will cost to run the Tri-Process. This is all the gas that can be used in twelve hours. However, in moderate weather it must be remembered that the full capacity of both burners is not required so that this amount may be reduced one-half.

BOTTLED SUNSHINE

Scott's Emulsion brings sunshine to the entire system of the consumptive.

All life is sunshine. The sun pouring its rays into the plant combines earth, water and air into new plant tissue.

Sunshine stored up in the plant is its life.

The animal changes plant tissue into animal tissue, changes the stored up sunshine of plant life into animal life.

Fat contains more stored up sunshine than any other form of animal tissue.

This is why Scott's Emulsion of pure cod liver oil is literally bottled sunshine, full of rich nourishment and new life for the consumptive.

We'll send you a sample free upon request.

THE RAILWAYS

Brotherhood of Locomotive Engineers. Cleveland, O., Nov. 22.—One of the most largely attended informal gatherings of the members of the Brotherhood of Locomotive Engineers was held in this city. Eight hundred members of that organization are present from widely separated parts of the country. The meeting was said to have been for an exchange of ideas among the members on the welfare of the order.

Railway Shops Burn. Terrel, Tex., Nov. 22.—Fire destroyed the Texas Midland railway shops. Two engines, one coach, one parlor car, one baggage car and three freight cars were also burned. The loss is estimated at \$50,000; insurance not known.

Railway Notes. The Ohio Central has decided to convert all of its parlor cars into buffet cars and to that end one of the cars already in the shops at Bucyrus, O., undergoing the necessary changes in interior arrangements. It will be followed by all of the other parlor cars of the company. The service will be similar to that now given in the parlor car on Big Four No. 19.

The passenger department of the Pennsylvania has just completed for distribution its book on tourist rates. Each year the company compiles a book in which is contained the rates and routes for tourists to winter resorts.

The Ohio Central has purchased two parlor cars from the Z. & W., and these will be used to replace the cars in the shops. When the Ohio Central cars have all been remodeled the old Z. & W. cars will be sent to the Pullman shops and rebuilt.

Several railroads are waiting to weed out from the conductors and brakemen those who are in the habit of accepting money from persons trying to steal rides. A hobo detective is the instrument which has been used to catch several such employees within the last few days and men on both passenger and freight trains have not escaped the new trap. A case is cited where a conductor was approached by a hobo who wanted to ride 200 miles and offered a certain sum. The conductor took the money and carried the hobo. When he got to the end of his run he received a message telling him to head back to the superintendent's office as another conductor would take charge of his train.—Columbus Dispatch.

Railway Paragraphs. Engine 224 has been transferred to the fourth division.

Mrs. Rich, wife of Ben Rich, the well known B. & O. brakeman, who is on Conductor Bullock's train, is lying seriously ill at her home in Columbus, the result of an operation which she recently underwent.

Engine 75 after having received much needed repairs, is out of the erecting shop.

J. McClurg, a well known B. & O. machinist, has tendered his resignation.

F. E. Redick has accepted a position as helper in the machinery department.

Engine 75 after having undergone a thorough overhauling in the shops has been turned out for service.

Conductor Vondevort is off duty on account of sickness.

Brakeman A. Oakleaf, after a short absence has returned to work.

Jack Wooley, the efficient B. & O. caller, is laying off making arrangements for the callers' big dance.

The B. & O. has already commenced the work of constructing the new stations along the line of the road. The first to be constructed are at Columbus and Belmont.

Brakemen I. H. Nelson, T. W. Stokle, J. S. Woodard and Vincent, after having been off or leave of absence for some days, have all marked up for service.

Conductors Donavin, Gallagher, Jakeway, B. F. Waiters and W. V. Anderson are all in charge of their cars. Besses again after having been off duty for a few days.

W. H. Fletcher has been marked up for service as extra brakeman on the Lake Erie and Straitville divisions.

Conductor L. Merrill is laying off for a few trips.

B. & O. Switchman Charles Hunt has gone to Spencer's Station to spend a week.

B. & O. Brakeman Thomas F. Mulquin, after a trip to California, has returned home, and has been marked up for service.

Memorial Services.

Newark Lodge, No. 204, B. F. O. F. has completed arrangements for the celebration of the Elks annual memorial service. The exercises, which are always interesting, will be held in the Elks club rooms on the evening of the first Sunday in December. A special program of music is being prepared for the occasion, and the memorial address will be delivered by ex-Probate Judge Tod B. Galloway of Columbus, now private secretary to Governor Herriek. Judge Galloway has the reputation of being a very eloquent orator and a rare treat may be expected.

Kicking on Stand-Patism.

(Pittsburg Post)

A few days ago an independent steel manufacturer of this city said to a representative of this paper: "The great steel corporations are buying up all the pig iron made by the smaller concerns and are storing it, while at the same time they are not making any in their own plants. As a result many manufacturers are compelled to shut down their plants because they cannot get the necessary raw material. If the tariff were reduced to a proper figure there would be a supply come from abroad and all our manufacturing would boom." This man has always been a Republican, and heretofore has insisted upon a high protective tariff. Now he is feeling the shoe pinch hard, and he is anxious for a change, but the standard-bearers will not permit one if they can help it.

Another Republican, a prominent railroad man who has done service for his party on more than one occasion as a spellbinder, said: "We ought to have a change in the tariff without delay. A general 10 per cent reduction at least would not hurt any industry, and it might be more in special lines. Some of our leaders have gone wild on the subject of standing pat. If they maintain this position many years longer the result will be the smashing of the protection policy. I don't want to see that, and I don't want the party to do the right thing before it is too late. I believe in the tariff policy enunciated by President Garfield. The protection which eventually leads to free trade, that is, a gradual reduction of tariff duties and their wiping out entirely whenever any particular industry needs protection no longer. I hope President Roosevelt will not stand by the standard-bearers, and that he will teach them some sense."

There are many other sound protectionists who believe just what these two men do. In New England there are thousands of them demanding a change in the tariff and the initiation of a reciprocity policy. The votes of some of these helped elect a Democratic governor of Massachusetts. In Iowa and Minnesota there are also many Republicans who are urging a revision of the tariff. Now that their ranks are being recruited right here in Pittsburg, the center of the high tariff advocates' power, only the blindest standard-bearers can fail to see trouble ahead in what they call the policy of letting well enough alone. Democrats who are desirous of seeing their party return to power at as early a day as possible will find no fault with this stand-pat policy. They can well afford to stand back and let the matter take its course. Meanwhile they can hardly be expected to have much sympathy for the high tariff protectionists who are now finding themselves hoisted with their own petard, and who persist in voting to uphold the stand-pat policy whenever they get the opportunity despite the ills which people suffer from it.

The boast is made in administration circles at Washington that our minister to Panama read the riot act to the government of that country and informed its members that while the republic was free yet its people would have to behave themselves and that the continual turmoil which has been so characteristic of many South and Central American countries would not be tolerated. This, it is said, was what led to the resignation of the commander of the so-called army of Panama, which consists of a couple of hundred men and boys. If this story is true it is another indication of the fact that we are to all intents and purposes responsible for the condition of affairs not only in the canal zone but in the republic of Panama generally. The story is one which can well be read with profit by the people of San Domingo and Haiti and other small republics which are given to turbulence, for it presages the time when, if they do not mend their ways, they will find our meddling ministers to them imitating the example set by our representative at Panama.

The estimates of the navy next year call for the expenditure of about \$17,000,000, as against \$17,000,000 for the present year, being an increase of \$200,000. A big navy seems to be a craze with those in control at Washington, and all ideas of expenditure, however extravagant, seem to be disregarded. There is one hope ahead, and that is in the development of the peace sentiment among our people. If the movement for international arbitration should have practical results a general disarmament of the nations would follow and our navy could then be kept within reasonable bounds.

An Ohio Democrat was being twitted regarding the recent slaughter of his party, and the opinion was expressed that the organization was now down and out for good. "May be," said the Ohioan, "but I'm old enough to remember what was said by the grand old Roman, Allen G. Thurman, in 1872. Some friends were in his office a day or two after election, and they were agreed that the Democracy might as well disband. Mr. Thurman waived his red bandana, and, after blowing a tremendous blast, said, with a hearty ring in his voice: "Gentlemen, I have listened to all you have said, and I want to tell you that this is too small a room in which to kill the Democratic party."

"Next year William Allen was chosen Democratic governor of the state."

A Badly Battered Warship.
The effect of big gun fire upon modern warships was seen in the case of the Russian vessel Askold in the battle off Port Arthur. The Askold led the sortie from Port Arthur Aug. 10, and, although shells were rained upon the vessel, she was able to pierce the lines of the enemy without excessive damage. Then a struggle ensued between the two fleets up to the time when each vessel of the Russian fleet looked to its own safety and tried to escape. The Askold was pursued by the cruiser Kasuga and a gunboat, but she was able to shake off her pursuers and reach Shanghai, at which port she was placed in dry dock. It was then seen that the ship was as full of holes as a sieve. On the starboard side there was a wrenched away a portion of her side six feet in diameter above the water line, the hole having been plugged with mattresses, barrels or whatever lay at hand. Two of the funnels were held in place by a thin sheet of metal, while the rear of the poop was nothing but a mass of broken, disjointed and hanging pieces of iron. In the interior of the vessel the bursting shells had transformed everything into a mass of ruin, four boilers were irreparably damaged, one of the great cannon was twisted as if it had been a straw and its shield destroyed. The battle casualties among the crew was slight, only twelve killed and forty wounded.

According to crop reports from Europe, the harvests in France, Austria-Hungary and Italy show the effects of the drought or extreme heat. In Austria-Hungary the wheat and rye crops are below the average. Oats and straw are bad, but hay good. Italy's corn crop is generally below the average and in some districts only one-fourth of last year's yield. In France, where heat prevailed during the growing season, the wheat crop averages well and is of excellent quality, but oats are not remarkable, and the later cuttings of fodder are bad. In Russia the fodder crop is bad, and the wheat crop varies from bad to satisfactory. The world over the wheat crop runs from "very good" to "very bad" in different countries.

If we cannot all enjoy a season of grand opera it is pleasant to know that some of our favored countrymen and countrywomen can. The American musical critics assert that this country will have more first class artists on the boards the coming winter than will be heard in the great music centers of Europe, notably Berlin. Of course it is American cash that does the business, but it is a step in advance to be certain of getting good music for good money.

The new Russian railroad around Lake Baikal is a triumph of engineering. The section along the lake is mountainous, the rocks in some places extending into the lake. On this strip of fifty miles there are thirty-two tunnels and 210 bridges and viaducts. The construction of this line was the most expensive bit of railroad work ever undertaken in Russia.

NATURAL GAS FRANCHISE

Introduced in Council but Application for Same is
Withdrawn by Helsey Company--Rate Not
Satisfactory--The Water Proposition
Considered by Council Monday Night.

The City Council met in regular session Monday night with President Rossell in the chair and the following members present, Messrs. Baker, Carline, Conrad, Jones, Hunter, Miller and Moser.

The finance committee recommended that Burt avenue be opened at a cost not to exceed \$700. The report was received and filed.

The committee on Board of Public Service reported, recommending the passage of the Helsey franchise ordinance to be introduced later in the evening. This committee consisted of W. E. Miller, E. J. Carline, C. L. Conrad, and Rees R. Jones.

The Solicitor reported that the city has a contract with the Newark Water Company, distinct from that in the ordinance granting it a franchise, in which it is agreed that the city may at any time demand more fire plugs. The council has demanded these additional plugs and the company has failed to put them in. The solicitor's opinion was that the city had a legal right to put in such extensions and charge them to the company and if necessary hold the cost of such extensions out of the money the city owes for water rental.

The following report of the Board of Public Service was received and filed:

The report of the Board of Public Service was submitted, recommending the acceptance of the plat of P. W. Brubaker and 12th Hull's addition. Recommending that ordinance establishing a sidewalk line on Riley street be not passed, as the street was dedicated for street purposes only and that establishing a sidewalk line will vacate 10 feet of said street for which the heirs of Joseph White will demand payment.

That plans and specifications for a 15 inch tile sewer on Locust street from Fifth to Eighth streets had been prepared and were on file in the office of said board.

The following petition was read from the Board of Managers and the Trustees of the Hospital, which on motion of Mr. Jones was referred to the committee on Board of Public Service, the solicitor being added to said committee at the suggestion of Judge Hunter. Mr. Conrad voted no on the reference.

A petition was presented from the managers and trustees of the Newark Hospital asking that, as the present quarters of the hospital were too small, and that the need of our rapidly growing city demands sufficient capacity for hospital purposes, the old graveyard be conveyed to said petitioners in fee simple providing said grantees will effect a corporate organization and will procure funds and erect a hospital building, and upon a further condition that after five years, he said city may buy said hospital upon paying the price agreed upon by one person appointed by the city council, one by said hospital organization, these two select a third person. That if above conditions are not satisfactory they may be properly modified.

The petition is signed by Mrs. W. N. Fulton, Mrs. Francis P. Kennedy, Mrs. J. A. Burner, Mrs. J. R. Davies, Mrs. B. Franklin, Mrs. W. H. Davis, Mrs. S. F. Van Voorhis, Mrs. A. Miller, Mrs. Kate L. Roe, Mrs. Adeline D. Smith, Mrs. A. H. Helsey, Mrs. H. D.

Ordinances were read for the second time accepting the plats of Brubaker's and Hull's additions, which were passed under a suspension of the rules.

The next ordinance was one introduced by Mr. Conrad, now known as the Helsey franchise ordinance, which was read for the second time and is in substance as follows.

Amended Ordinance.

The following is the franchise ordinance as amended by the committee on Board of Public Service. This ordinance was withdrawn by the Helsey Company, as it was not satisfactory to said company:

An ordinance granting certain rights in the streets, etc., of the city of Newark, Ohio, for the purpose of laying mains and pipes thereunder for natural gas.

Section 1. That, subject to the conditions and provisions of this ordinance, there be granted to the A. H. Helsey Company (Incorporated) the right to the use of the streets, within the limits of said city for the purpose of laying therein pipes and mains to carry and convey natural gas for the use of the public and citizens of said city, for heat, fuel and light, for the period of twenty-five years from the passage and taking effect of this ordinance. Provided, however, that such right is so granted upon the condition that the A. H. Helsey Company shall not enter upon or in any manner use the streets until the Council shall have been satisfied that said company have brought to the corporation line sufficient gas to reasonably supply the needs of said city and its citizens; and shall have said gas ready for domestic use within twelve months from the taking effect thereof.

Sec. 2. Provided further, that all digging or excavating shall be done under the superintendence of the Board of Public Service, and to the satisfaction of said Board, and said Board shall appoint a director or superintendent to carry out the provisions of this section, and such superintendent shall be paid by the A. H. Helsey Co. not to exceed two dollars per day.

Sec. 3. Provided further, that the trenches and mains shall be so constructed as not to interfere with any pipes, sewers or conduits already laid; and said pipes and mains shall be buried in the earth to a depth of at least thirty inches. Said streets shall be put in as good condition after any excavating as they were in before said excavating; and if said A. H. Helsey Co. shall fail or neglect to restore said streets, then the Board of Public Service shall cause the same to be done at the expense of said A. H. Helsey Co.

Sec. 3. Provided further, that if at any time, during the life hereof, any of the mains, pipes, lines, meters or other apparatus used by said company hereunder, shall leak, the same shall forthwith be repaired by said company, and if the said Helsey Co. shall neglect or refuse to so repair the same for eight hours after having been notified so to do by the Board of Public Service of said city, then said Board shall cause said repairs to be made at the expense of said Helsey Co.

Sec. 4. Provided further, that the said Helsey Co. shall hold, preserve and keep said city safe and harmless from any claim for damages, either to persons or property by reason of constructing or operating said gas line; and said Helsey Co. shall defend, at its own cost any and all suits brought against said city by any person, firm or corporation on account of the construction, operation or maintenance of such trenches, mains, pipe lines, or in the use, distribution or sale of said gas.

Sec. 5. Provided further, that said Helsey Co. shall, upon the petition of one-half of the residents of any street in said city, who promise to sign contracts for the use of said gas, to them directed in writing, proceed forthwith to lay such mains, pipes, etc., as are necessary to supply the residents of said street with gas for heat, fuel and light; and if the said A. H. Helsey Co. shall fail to furnish gas to any one who desires to purchase the same, either for heat, light, or fuel, for a period of thirty days, then all rights and privileges herein granted shall be forfeited, provided however, that nothing herein contained shall be construed to prevent said A. H. Helsey Co. from turning said gas off on the premises of any consumer who is in default for payment thereof.

Sec. 6. Provided further, that said A. H. Helsey Co. shall pay the cost and expenses of the publication of this ordinance.

Sec. 7. Provided further, that the location of all trenches and pipes in the streets or alleys shall be designated by the Board of Public Service of said city; and said Board shall prescribe in what manner any excavation shall be made or pipe or main laid.

Sec. 8. Provided further that the rights and privileges herein granted shall be subject to any general ordinance regulating the manner of laying pipes in said city.

Sec. 9. Provided further that all gas sold by virtue hereof shall be sold by meter measurement. Said meter shall be of standard make, and shall be furnished by said company to the consumer free of rent or other cost; and said company shall not demand or receive any deposit of money for the return of said meter. Said A. H. Helsey Co. shall for a period of 10 years, be entitled to charge for said gas so distributed and sold a sum not in excess of fifteen cents per thousand cubic feet by meter measurement. At the expiration of said 10 years Council shall again fix said price by ordinance.

Sec. 10. Provided further, that said Helsey Co. by these presents acquire no right to sell, assign or transfer, or in any manner dispose of the rights and privileges, or any part thereof, acquired hereunder to any person, firm or corporation.

Sec. 11. Provided further that as a part consideration for the grants herein expressed said A. H. Helsey Co. shall during the life of this franchise furnish to said city of Newark, without charge therefor, sufficient gas for fuel either at the proposed City Water Works plant, the proposed Sewer Disposal plant or the City Electric Light plant, at the option of the City Council, as it may from time to time determine.

Sec. 12. Provided further, that if at any time during the continuance of the rights herein granted said A. H. Helsey Co. shall refuse or neglect to furnish to any person in said city or fail or refuse to operate said gas line business for a period of thirty days, or do any of the things herein stipulated that it shall not do, or neglect or fail to do any of the things herein stipulated it shall do, or in any way violate the provisions hereof, all rights, privileges or grants herein conveyed to said A. H. Helsey Co., shall terminate, cease and be utterly void; and said pipes, lines, mains, meters and other appurtenances of said gas line system, within said city shall thereupon be forfeited to and become the property of said city.

Sec. 13. Said A. H. Helsey Co. shall within thirty days the passage hereof accept the same in writing.

Sec. 14. This ordinance shall take effect and be in force from and after its passage and legal publication.

Ordinance Proposed by Mr. Helsey.
Following is the original ordinance proposed by the Helsey Company, which the Council referred to the committee on Board of Public Service:

An ordinance granting to A. H. Helsey & Company the right and privilege of laying pipes in and through the streets, alleys, avenues and commons, bridges and public grounds and places of the city of Newark, Ohio, for the purpose of conveying and supplying natural gas or fuel gas to the consumers thereof fixing and regulating the price to be charged for a period of ten years.

Be it ordained by the Council of the city of Newark, State of Ohio, that A. H. Helsey & Company, Incorporated, its successors and assigns, are hereby granted the privilege and invested with the right of using the streets and places of said city, for the term of twenty-five years, for the purpose of laying pipes to be used for conveying natural gas or fuel gas in and through the said streets, lanes, avenues, alleys, bridges, commons and public grounds and places for the purpose of laying such pipes and other appliances required to convey said gas to the consumers thereof.

Said grant is made upon the following terms and conditions:

Section 1. That all pipes and appliances shall be laid in a good workmanlike manner.

Sec. 2. All injuries done to said streets, lanes, avenues, alleys, bridges, commons and public grounds and places, shall be repaired with due diligence, by said A. H. Helsey & Company, its successors and assigns, and said streets, lanes, avenues, alleys, bridges, commons and public grounds and places, left in as good condition as before said pipes were laid.

Sec. 3. Said A. H. Helsey & Company, its successors or assigns shall save the city of Newark harmless from any damages or claims for damage arising from or growing out of the right herein granted.

Sec. 4. Said pipes shall be laid so as not to interfere with the drainage of said city by the necessary construction of sewers for the conveyance of water within said city.

Sec. 4. Whenever a property owner along the line of said gas main desires to have the same covered, he shall be bound to do so. (Continued on Page 8, 4th col.)

A WAY OPEN.

Many a Newark Reader Knows It Well. There is a way open to convince the greatest skeptic. Scores of Newark people have made it possible. The public statement of their experience is proof of the like of which has never been produced before in Newark. Read this case of it given by a citizen:

Mrs. John Goodwin, No. 9 Meyers street, says: "My back was so painfully troublesome that I could neither sit, stand or lie down with comfort. It was the first time that I had anything wrong with my kidneys and happening to see Doan's Kidney Pills endorsed locally so I sent to Crayton's drug store and got a box. After I had been using them a short time I felt that I was improving. My back finally got well so that I was before long able to be around again."

CHANGE OF VENUE

Wanted by James F. and Robert C. Lingafelter--
Motion to be Argued Monday--Evans Case
Argued--McMannus Case Disposed Of.

In thirty of the cases of the State of Ohio against James F. and Robert C. Lingafelter, defendants were filed on behalf of the defendants by their attorneys, Smythe & Smythe, and on Monday next a motion for a change of venue will be argued to the court.

In case the motion for a change of venue is sustained by the court the trial of the Lingafelter cases will take place in some adjoining county to be named by the court. The trial of Robert Lingafelter on the charge of forgery, had been set for Wednesday.

Evans Case Argued.

In the case of the State of Ohio vs. Philip B. Evans, the submission of testimony was concluded Tuesday and the arguments of counsel and charge of the court was given this afternoon. Evans is charged with assaulting Stephen Kessley. The State claims that Evans struck Kessley on the forehead with a club, the matter growing out of a dispute over a right to use a certain roadway. Considerable expert medical testimony was introduced by both parties. Fitzgerald, Kibler & Kibler, Homer.

Sent to Industrial Home.

Maud Renfrew, a young girl of this city, has been ordered by the Probate Court to be committed to the Girls' Industrial Home at Delaware on the charge of incorrigibility.

Charge Against McMannus Changed.

State of Ohio vs. Joseph McMannus, plea of not guilty of highway robbery changed to plea of guilty of petit larceny. The prosecuting witness was a man named Riley, who could not be found. The amount charged to have been taken was \$74.00.

cons. The defendant has been in jail five months. He was sentenced to the Columbus workhouse for three months; sentence suspended during good behavior. Bolton.

Galloway Case Heard Tomorrow.

The application for requisition in the case of Robert E. Galloway, who is wanted in Welch, W. Va. on the charge of obtaining money under false pretenses will be heard before Judge Conner tomorrow. The case was called on Monday and set for hearing on Wednesday. Attorneys Frank Bolton and Smythe & Smythe will represent the defendant, and Chief of Police A. C. Day and Attorney Beaver of Welch, and Hunter & Hunter of this city, will represent the state of West Virginia.

PREMIUM STAMP CO.

Which Had a Branch Office in Newark Goes to the
Wall With Liabilities Scheduled at \$11,583 and
Assets at \$10,378--What Will Stamp
Holders Receive?

Columbus, O., Nov. 22--George A. Bethel, proprietor of the Merchants' Premium Stamp company, 492 North High street, this city, and of five other stores of the same character in the cities of Newark, Hamilton, Shelby, and Mt. Vernon, O., and Richmond, Ind., filed a voluntary petition in bankruptcy in the United States court, yesterday afternoon. Liabilities are scheduled at \$11,583.72 and assets at \$10,378.25.

Of the former, \$7,498.60 of the claims are admitted to be unsecured. The value of outstanding stamps which must be redeemed by virtue of a bill passed by the last legislature is roughly estimated by the petitioner to be \$2,000. These are naturally included in the list of claims unsecured. Bethel made a filing some time ago

that he would redeem stamps issued at the rate of one dollar for each collection of stamps representing a purchase of \$100. This would amount to a redemption of 1 per cent. A person holding stamps representing a purchase of goods to the value of \$100 was to be paid \$1, a person holding \$50 worth of stamps, 50 cents, and so on. The amount that holders of stamps will actually receive, however, will depend upon the final adjustment of the assets and liabilities.

The failure of the Merchants' Premium Stamp company has resulted in the closing of the doors of the branch office in Newark, which has been conducted by Mrs. Henry Hammond and Miss Mame Gorman in the room next to Powers & Criss Brothers, on South Third street.

GRANVILLE NEWS

Granville, O., Nov. 22--Monday afternoon the Travelers' Club held its regular meeting in the parlors of the Baptist church. The meeting was an unusually successful and interesting one, the club travelling in Thebes on that day. One special merit was the talk given by Mrs. Goodell upon "Epaniondas." In her usual and brilliant manner Mrs. Goodell spoke upon this subject of such historical facts and explanations being set forth by her. The entire program was interesting throughout and of great profit to the members of the club.

Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuritis, Lumbago and Kidney troubles, and General Debility. This is what I. P. Bass, of Freemont, N. C., writes. Only 50c at Hall's Drug Store.

The only place in the world where violin making has been said to constitute the staple industry is Merano, a town in Savoy, with its numerous surrounding villages. There are also, either about 1500 people in this district engaged exclusively in the manufacture of violins. The inhabitants, from the small boy and girl to the wrinkled, grey-headed veteran and aged grandfathers, are employed through the year in making some part or other of this instrument.

Beliefs of a Benedict.

Few men who take a better half prepare for the worst. About the best example of a work of supererogation is teaching a girl baby to talk. Science says kissing causes disease. It has been known to cause palpitation of the heart. A Kansas man saved a widow from drowning and was married to her within six weeks. One can't be too careful. "Why don't you write some happy 'Married Man's Musings'?" asks a correspondent. It would take a bachelor to do that. There are only 50,000 really handsome women in the United States, according to a magazine writer. Every woman wonders who the other 49,950 are. Everything has its compensations. When a fellow gets the grip his wife consoles herself with the thought that afterward she can tell him he was "as cross as a bear." A fellow who's intoxicated with love sobers up pretty soon after marriage. Probably Adam would never have married if he had had to stand up in church before a thousand people with

a frock coat on and go through a ten minute ceremony that seemed like ten hours.

"All men are liars," but married ones have more ready made opportunities. An old bachelor at a christening party seems about as appropriate as a whip on an automobile.

And poor Eve died without being able to join the daughters of anything! —St. Louis Republic.

Ups and Downs.

"Hello!" came an excited voice over the wire. "Give me the football grounds. I want to find out about the lineup." "Well, you can't do it!" replied the telephone girl sharply. "The line's down." —Boston Herald.

The soil of Cuba is extremely fertile. Cabbages there are so large that heads weighing 20 pounds each are common. All vegetables do well. Radishes may be eaten from 14 to 18 days after sowing. Lettuce in five weeks after sowing, while corn produces three crops per year. Sweet potatoes grow all the year.

LINING UP

Are the Powers in Support of Peace Conference to be Held at The Hague.

Washington, Nov. 22.—One by one the powers are lining up in hearty support of President Roosevelt's suggestion that another session of the Hague tribunal be convened to complete the work outlined by the first peace congress. Secretary Hay received cordial acceptances from Sweden and Mexico. The Swedish government expresses its gratitude to Roosevelt for calling the matter to the attention of the powers, heartily accepts the invitation, and expresses the opinion that one of the most important subjects which the court should consider is the effect of war on the rights of neutrals and a definition of contraband of war. The official answer of Russia has not yet been received. Mexico's acceptance is cordial.

Small Town Threatened.

Los Angeles, Cal., Nov. 22.—Forest fires at La Canyada threaten to wipe out the little town of La Crescenta. The people of La Crescenta have called for assistance from La Canyada and Pasadena, but there does not appear to be any prospect of getting the fire under immediate control. It may burn for a day or two. The forest rangers are at present at Mount Lowe and the fire is being fought by ranchers.

Kerens Covets Senatorship.

Kansas City, Mo., Nov. 22.—Richard C. Kerens of St. Louis, former Republican national committeeman for Missouri, who was in this city on business, declared that he was in the race for United States senator to succeed Francis M. Cockrell, to stay "The legislature has previously given me votes of confidence," said he. "Now I shall test these expressions of good will."

OHIO NEWS

Quarrymen Out.

Sandusky, O., Nov. 22.—Four hundred of the 600 men employed at the quarries of the Kelley Island Lumber and Transportation company went on a strike because their working time had been reduced from ten to nine hours a day, with a proportionate reduction in wages. The men made a counter demand of \$1.75 per day of ten hours. That was refused and the strike followed. The quarries are idle in all departments.

Fatal Quarrel.

Portsmouth, O., Nov. 22.—Amaziah Lewis, an old soldier, was shot and fatally injured by a shotgun in the hands of Robert Cooper. The trouble arose from a quarrel between the daughters of the principals. Cooper, it is charged, procured his shotgun and walked within 20 feet of Lewis, when he emptied the contents of both barrels into his body.

Cleveland Selected.

Cleveland, O., Nov. 22.—A vote taken by the members of the International Union of Bridge and Structural Iron Workers to determine the location of the headquarters has resulted in Cleveland being selected. New York and Chicago also received votes.

Quarrel Over a Penknife.

Portsmouth, O., Nov. 22.—As a result of a quarrel over the ownership of a penknife David Blevin of Upper Twin Creek was fatally stabbed by William C. McGraw, who is at large. Blevin was cut above the eye and his left lung was penetrated.

Laborer Suffocated.

Steubenville, O., Nov. 22.—A number of Italian workmen about the boiler works of the Labeled iron works furnaces were asphyxiated by furnace fumes, and one, Frank Magi, 34, has since died.

Mayor Johnson's Plans.

Cleveland, O., Nov. 22.—Mayor Johnson is reported to have announced that he will be a candidate for mayor or governor next fall, probably the former.

SUICIDE

While Temporarily Insane Over the Loss of His Betrothed—Coroner's Verdict.

Chicago, Nov. 22.—Suicide while temporarily insane over the loss of her betrothed was the verdict of the coroner's jury in the case of Ella Gesterling, whose dead body was found in the girl's apartments at the Vendome hotel. The death of the young woman, according to the police theory, may have been the result of a suicide agreement entered into by the dead girl and Charles A. Parker of Cincinnati, a well known railroad official. Parker died suddenly in Cincinnati under circumstances that might indicate that he had taken his own life. The inquest in the case of Miss Gesterling, however, failed to bring out any confirmation of the alleged pact.

Crusade Against Foreigners.

Salt Lake City, Nov. 22.—As a result of a series of criminal acts, which culminated last week in the assault and serious injury of Mrs. Schwarz, the wife of a smelter employe, and her two small children, a mass meeting will be held in the smelter town of Murray. At this meeting it is proposed to take steps to rid the community if possible of all Greek and Austrian laborers, of whom several hundred are employed at the smelters. The smelter officials, it is stated, will be asked to discharge all Greeks and Austrians, and hereafter to employ only Americans. Failing in this, there is some talk of more forcible measures.

Spanish Bark Lost at Sea.

Philadelphia, Nov. 22.—The British steamer Aros Castle, Captain Day, 37 days out from Java with a cargo of sugar, arrived at this port and reported the probable foundering on Nov. 15 of the Spanish bark Tafalla, Captain S. Roig, with her crew of 15 men, during the recent southern storm. The steamer stood by the sinking bark for two days, and on the second night the Spanish vessel disappeared. The condition of the Tafalla when the crew of the Aros Castle last saw the vessel was such as to lead them to believe that the bark went down during the night.

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," says R. S. Webster & Co., Toronto, Ontario, Canada. For sale by all druggists.

THREE BROTHERS

And Three Sisters Married at the Same Time and Place in Wisconsin.

Chippewa Falls, Wis., Nov. 22.—Rev. M. E. Nelson, Andrew Nelson and Charles Nelson and Jessie Johnson, Amanda Johnson and Clara Johnson, three brothers and three sisters were married at the same time.

After the triple ceremony, Rev. C. J. Erdman, who officiated, asked Rev. Nelson, one of the newly married brothers, to marry him to one of the guests.

All the bridesmaids and all the brides will go in a party to the World's Fair for a honeymoon trip.

AN UNUSUAL OPPORTUNITY.

Wiles-Erman Drug Co. will pay back your money if Pepsikola fails to cure dyspepsia. "Never in the history of this store," said one of the above druggists to a representative of a wholesale drug house "has there been so great a demand for a new remedy as there is just now for Pepsikola."

"Newark people are coming in every day inquiring if it really is true that we sell Pepsikola with the understanding it will cure dyspepsia or pay back the money. Of course this guarantee plan is quite unusual but we do just as we agree and we will hand back your quarter without the least argument if you are not decidedly benefited." "As a matter of fact," continued the druggist, "not one person in fifty has asked for their money, and it may surprise you to know that at least a dozen within the last ten days have been in to tell us how much they have been relieved and how glad they are to know at last there is a remedy that really will cure indigestion and dyspepsia."

Pepsikola braces up and tones every nerve and fibre, helps digest the food, puts new life into the digestive organs, improves the appetite, clears up the complexion, cures biliousness, dizzy spells, coated tongue and sick headache.

Try it for ten days and if you don't see a big improvement step in and tell Wiles-Erman Drug Co., and they will hand back your quarter cheerfully and without argument. 11-15-4-t-11

PERT PARAGRAPHS.

There is no canned sunshine, but
there is plenty of bottled moonshine
on the market.

Adversity is the grindstone on which
wits are sharpened.

Glittering advertise-
ments of the different
brands of ham never
seem to annoy the
street car hog.

Often a man tries to
do you and dun you
at the same time.

You can tell a lady
as soon as you see
one, but as to a per-
fect lady you must
wait until she informs
you.

Marriage is a lottery in which every
man thinks he has drawn the capital
prize, at least for awhile.

If the stage agriculturist should wan-
der into the country he would have
to wear a tag so that the natives would
know what he was.

The man who thinks he can beat the
other fellow's game gets as a consol-
ation prize a ticket entitling him to one
more, think.

A real estate man will frequently tell
the truth when talking about the
weather.

I think it would be just immense—
Yes, all of that and more—
If we could buy experience.

Down at the corner store,
'Twould save a lot of time and trouble.

Now when a man goes on the street
Experience to buy.
He needs must wait till he can meet
Some smooth and oily guy
Who's looking for a bunch of scholars
That feel that they must shed their dol-
lars.

Or if he seeks the gentler sex
And thinks to go a-wooing,
They keep him busy writing checks
To aid in his undoing.
When he knew the looks and crooks
He'd play to win on his good looks.

He dabbles round in politics
For fame and maybe riches,
Whereas, if he were over six,
And understood the hitches,
He'd always keep a shotgun handy
When politicians came to bandy.

Yes, man must buy experience
In much the same old manner;
He can't buy canned and labeled sense,
So he must bear the banner
And get it in the good old way—
At least, that's what the old folks say.

The Best Insurance

William Boyd of the Curtis Publish-
ing company addressed the Manufac-
turers' Advertising club at the Hotel
Euclid, says the Cleveland (O.) Plain
Dealer, on "The Preparations Necessary
to a Successful Advertising Cam-
paign." Mr. Boyd opened with the
statement that unless a business or-
ganization is responsive to changing
trade conditions it cannot be success-
ful. He cited the growth of advertis-
ing to show it one of the new business
conditions which every concern must
meet.

Mr. Boyd likened advertising to a
business insurance. If an advertiser's
place of business burns down, even
though he has no fire insurance, he can
at once rebuild and continue to do a
profitable business because he has ad-
vertised, thereby creating a demand for
his goods.

It is of course just as important
that your ad. should be in the right
paper as it is to have your insurance
in a good company. Keep it in these
columns.

A-doin' right away.
Pa turns around at us an' glares
As fierce as he can look.
But when we're out of sight, upstairs,
He goes back to his book.

Ma doesn't glare as much as pa
Or make as big a fuss.
But what she says is law is law.
An' when she speaks to us
She's lookin' careless around
'Er somethin' long an' flat.
An' when we notice it we're bound
To be good after that.

So we ain't scairt o' pa at all.
Although he thinks we are.
But when we hear ma come an' call,
No difference how far
We are away, we answer quick
An' tell her where we're at.
When she stoops down an' starts to
pick
Up somethin' long an' flat!

Dust Explodes in a Mine.
Clinton, Ind., Nov. 22.—By a dust
explosion in one of the mines at Ca-
yuga, this county, two men were fatal-
ly injured and property was damaged
to the extent of several thousand dol-
lars. Lester Jones and William Outing-
er of Cayuga were in the mine when a
shot ignited the accumulated gas in
the room, and in an instant the entire
mine was a mass of flames. The men
were terribly burned about the head,
neck and arms.

Shot From Ambush.
Cannelton, Ind., Nov. 22.—By Edgar
Jarboe shot and killed Henry Cody
from ambush, near Mount Pleasant,
as the latter was driving home. The
load from a shotgun passed through
Cody's back. He lived long enough to
accuse Jarboe, who disappeared. The
two had quarreled.

WEDDING

OF MAGICIAN ERNEST MOORE-AT
JAMESTOWN, N. Y.

On Thanksgiving Day to Pretty Miss
Ada Melrose of the Same
Company.

"Not all the love making done on
the stage of the New Castle, Pa., opera
house the past week has been make-
believe. Among the members of the
Chicago Stock Company, which is play-
ing here for six nights, are a hand-
some young man and a very pretty girl
whose evident liking for each other's
companionship in secluded corners of
the wings has been very apparent to
the other players. Consequently,
when it was announced to them that
there will be a wedding in the com-
pany this week, they were not so very
much surprised. This week the com-
pany plays in Jamestown, N. Y., and
there, on Thanksgiving day, Miss Ada
Melrose the pliant little subreptic,
will become the happy wife of E. J.
Moore, magician, whose feats have
been mystifying New Castle audiences.
Their fellow actors and actresses will
be witnesses to the joyous event and
there'll be a big combination Thanks-
giving and wedding dinner."

The foregoing notice which is taken
from the New Castle, Pa., Herald, will
be of general interest in this com-
munity, where Mr. Moore was born
and brought up, and where he has
hosts of friends and admirers. Mr.
Moore's friends will note in wishing
him and his fair young bride all the
happiness that life is capable of afford-
ing. Mr. Moore, who has been seen on
the stage at both the Auditorium and
Idlewild Park Casino, is the son of
Mr. and Mrs. John Moore, his father
being the well known ex-county re-
corder.

AMUSEMENTS

Tears, smiles and laughter in Roan-
oke, at the Auditorium this evening.
New York production with capable
people. Beautiful scenery and a ster-
ling play. Hal Reid's Roanoke at the
Auditorium tonight.

DR. JEKYLL AND MR. HYDE.
Agreeing that the public's familiar-
ity with "Dr. Jekyll and Mr. Hyde" be-
cause of its many repetitions, has suf-
fered it to be referred to as "old as the
hills," it is no small wonder that this
same public hesitate to even think of
witnessing a presentation of the play.
In these days, theatre-goers generally

Hyde—You have denied the virtue of
transcendental medicine—Behold!

stop to consult the possibility of their
visiting something meritorious. They
analyze their chances very carefully.
The fact that Dr. Jekyll and Mr. Hyde
has been frequently presented, and
that the public is more or less familiar
with its theme is a splendid argument
in favor of its extreme popularity.
but in view of the fact that the play
has seldom received a really creditable
presentation, it is not remarkable that
to know that Mr. Elwyn Strong in of-
fering an entirely new scenic produc-
tion of the great drama should be meet-
ing with such tremendous success.
The players have been engaged with
but one idea in view, that being the
correct portrayal of the parts. A
complete scenic equipment is made
another feature of the production
perfection has been the aim, and
though "as old as the hills" even hills
may be remodeled and reformed to be
as comparatively desirable as "Dr.
Jekyll and Mr. Hyde" now appears.
This company is to appear at the Au-
ditorium Thanksgiving day, matinee and
night.

A MIDNIGHT MARRIAGE

"A Midnight Marriage" which will
be the attraction at the Auditorium on
next Saturday matinee and night, with
the complete original New York pro-

Scene from A Midnight Marriage
duction and an excellent cast of met-
ropolitan players—promises a treat to
the many patrons of the Auditorium.
The play is by Hal Reid the well-
known author and the plot is laid in
and around New York, giving ample
scope for scenic novelties as well as a
diversified and varied group of char-
acters, taken from the city's various
grades of inhabitants.

THE MAID AND THE MUMMY.

Mrs. Annie Yeamans, one of the
players of "The Maid and the Mummy"
company, which you have seen here so
often, is in her 70th year. As Mrs. Gilbert
is recognized as the "grand old lady" of
the "legitimate" stage, so is Mrs.
Yeamans called the "grand old lady"
of the musical comedy world. From
all appearances she appears just as
"chipper" as ever, dancing in the
many ensembles surrounded by the
younger generation, which by the way
is claimed to be one of the most de-
lightful choral acts promised a pre-
sentation this season.

MISS RUTH WHITE.

Ruth White, the dainty actress who
made such a hit in Newark in "The
Eugene" is going to star this winter
in Babette, the comic opera that
Fritzi Scheff gained fame with last
year. In a letter to Coshocton relatives

Miss White states that they will start
out in January. While in Newark Miss
White was the guest of relatives in
this city.

ZANESVILLE AND NEWARK.
The "Critic," in the Zanesville
News is bitterly complaining over the
character of amusements given the
Zanesville public this season and in an
article published in the last issue had
this to say of Newark:

"Another striking example of where
Zanesville amusements lovers 'get it in
the neck' and, which again affords
Newark an elegant chance to give this
town the beehaw, is that of Friday
night, while a Zanesville audience was
being afflicted with 'Siberia,' Newark
patrons of the Auditorium, and it was
a 'standing room only' audience, were
being delighted by the inimitable Hop-
per."

"Later in the season Nat Goodwin
will be there in 'The Usurper,' his
new and latest success, with such wo-
men in the cast as Miss Dora Dean
Goodwin had been playing in Colum-
bus. Manager Matthews of the New-
ark Auditorium, made a little trip to
Columbus last week and signed Good-
win to play in the Newark Auditorium.
Zanesvillians will be compelled to go
to Newark to see Goodwin, as it is
much easier for a large party to travel
to Newark, than it would be for the
manager of the local house to go to
Columbus and bring Goodwin and his
troupe to Zanesville."

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair,
No Matter What Color.

The finest contour of a female face, the
sweetest smile of a female mouth, loses
something if the head is crowned with
scant hair. Scant and falling hair, it is
now known, is caused by a parasite that
burrows into the scalp to the root of the
hair, where it saps the vitality. The lit-
tle white scales the germ throws up in
burrowing are called dandruff. To cure
dandruff permanently, then, and to stop
falling hair, that germ must be killed.
Newbro's Herpicide, an entirely new re-
sult of the chemical laboratory, destroys
the dandruff germ, and, of course, stops
the falling hair, and prevents baldness.
Sold by leading druggists. Send 10c. in

BOUND OVER

AND SENT TO JAIL BY MAYOR
CRILLY TUESDAY

Was "Dutch" Woods for Alleged As-
sault on Mrs. Long—Tuesday's
Police Court.

"Dutch" Woods was bound over to
the Probate court in the sum of \$100
for assaulting Mrs. Henry Long. He
was sent to the county jail.

Theodore McClelland was arrested
for petit larceny and was bound over
in the sum of \$100 and was also sent
to jail.

William Luben was also bound over
in the same amount for stealing a book
from baker John Flanagan, containing
valuable cake receipts. He was also
sent to jail.

Officer Scott arrested four tramps
on Walnut street for prowling. Charles
Snyder, who was some time ago bound
over for robbing Swartz's shoe store
in West Newark, is among them. They
will have their trials tonight.

A valuable watch was stolen from
the home of Mrs. John Tucker last
night. This morning the watch was re-
turned. This was due to the fact that
the police were so hot upon the trail
of the person who took it.

DR. THAD REAMY

Noted Cincinnati Physician, Well Known in Licking County, is Sick at His Home.

Dr. Thaddeus A. Reamy, the noted gynecologist, of Cincinnati, brother of Mrs. Emeline Ball of North Fourth street, Newark, was seized with a sudden heart attack Sunday at his home, at Jones Station, and Drs. Bonfield, Mitchell and Gillespie hastened to his side. While they found the venerable physician a very sick man he soon rallied and there is now no immediate danger of a fatal result. The attack was consequent upon a siege of grip with which Dr. Reamy has been suffering for two weeks. Years ago Dr. Reamy commenced the practice of medicine in Licking county.

PRISONERS

Objecting to Special Privileges Granted to Hoover and Davis at the Penitentiary.

The Columbus Press-Post which for several days has been telling of the prevailing conditions at the penitentiary, referring especially to the special privileges accorded Harry J. Hoover and Banker Davis of Indiana, printed another article Monday evening. The following extract is made.

"Under ordinary circumstances if prisoners are good they are allowed to see their relatives twice a month. But they must go either into the guard room or the pavilion. There is no privacy. But Hoover may receive his friends or relatives any time and see them alone.

"The feeling among the prisoners is intense, and it is interfering with discipline. They feel the injustice of special favors granted to favorite prisoners with soft hands and a political or financial pull and the citizens at large in the community are beginning to wonder how far this sort of things extends.

"Since the story first appeared in the Press-Post there has been a frantic effort made at the penitentiary to cover up. Hoover and Davis did not get their walk Sunday.

"Monday, however, they were in the restaurant with attaches of the prison laughing and having a royal time.

"Harry, as the warden and the rest of the officials affectionately refer to him, Hoover having served with Warren Gould on the Gallipoli hospital board, seemed to be having a splendid time. There was no prison fare for him."

WEHRLE FOUNDRY

Threatened by Fire Monday Night and Three of Fire Departments Were Called Out.

The big Wehrle stove foundry was threatened by fire Monday night about 11 o'clock, a blaze having broken out in a pile of old flasks and other rubbish, on the south side of the railroad track, near the big new foundry building. It was only a few minutes until hose companies 1, 2 and 4 were on the scene and the blaze was extinguished with no loss to speak of.

NATURAL GAS FRANCHISE

(Continued from Page Four.)

sires the use of natural gas or fuel gas, the said A. H. Heisey & Company, its successors or assigns, shall be required to lay at its or their own expense, service pipes from their main line to the line of the lot occupied by the consumer.

Sec. 5. And be it further ordained that for a period of ten years from the passage of and taking effect of this ordinance, said A. H. Heisey & Company, its successors and assigns, shall be entitled to charge for any such gas furnished at the rate of twenty-five cents (25) per one thousand (1000) cubic feet, measured by meter measurement, which meters shall be of standard make.

Sec. 6. Said A. H. Heisey & Company, its successors and assigns, shall within ninety days from and after the passage and taking effect of this ordinance, accept the provisions hereof by written acceptance filed with the clerk of this corporation.

Sec. 7. This ordinance shall take effect from and after its passage and publication according to law.

.....Pres.
.....Clerk.

As soon as reading clerk Ralph Davis had finished reading the ordinance, and before any action was taken by the council, Attorney J. R. Fitzgibbon, who was present as representing the Heisey interests, asked to be recognized, which permission was promptly granted by the Council. Mr. Fitzgibbon stated that under such terms as the proposed franchise granted the company, Mr. Heisey could not see his way clear to accept it, and wished to withdraw his application for a franchise.

This announcement on the part of Mr. Heisey's representative, came as a surprise and considerable discussion followed. Mr. Conrad was of opinion that Mr. Heisey's announcement should settle the matter, and in this he was upheld by his Republican colleague, Mr. Carlisle. Judge Hunter was of an entirely different opinion and pointed out the fact that the company had asked for a franchise under whatever conditions could be agreed upon, between it and the council.

Mr. Heisey had had an ordinance introduced which was referred to a committee. This committee had reported back some amendments and it now came in poor grace for him to show such animus and wish to withdraw his application. The council in the proposed ordinance had made him a proposition which it asked him to either reject or accept, and it was now up to the council to pass the ordinance, and let the people of Newark see what Mr. Heisey's attitude was in the matter. The committee recommended the passage of the ordinance, and because Mr. Heisey did not like some of its provisions his impassioned withdrawal of his application did not alter the duty of the council which it owed the people. Judge Hunter said he for one wanted the people to know his attitude, as well that of the Heisey company, and therefore moved a suspension of the rules and the passage of the ordinance.

The vote on a suspension of the rules, which would practically decide the fate of the ordinance, developed the remarkable fact that E. J. Carlisle and C. L. Conrad, both members of the committee that had recommended its passage, voted against a suspension of the rules which was practically against the ordinance and Hunter's motion was lost. Of course nothing further could be done in the matter and the ordinance went over.

An ordinance was introduced by W. E. Miller appropriating from the general contingent fund \$700 for the purchase of real estate for the opening of Burt avenue.

The very first resolution caused considerable discussion. It was one introduced by Rees R. Jones and read as follows:

"Be it resolved by the council of the City of Newark, Ohio, that the Board of Public Service be and the same are hereby authorized, empowered, directed and required to submit in writing a proposition to The Newark, Ohio, Water Company of Newark, Ohio, to purchase their entire water works plant in said city of Newark, Ohio, for the said city of Newark, Ohio, at a price not to exceed one hundred thousand dollars the said purchase price therefore to be paid, and possession of said plant given during the month of January, 1905, that said proposition be submitted upon condition that said Newark, Ohio, Water Company accept the same in writing within ten days from and after this 21st day of November, 1904, and that said proposition be submitted upon the further condition that the same be approved by a majority of the voters of the city of Newark, Ohio, at a special election to be held for that purpose within thirty days from and after the date of the acceptance of said proposition by the said Newark, Ohio, Water Company."

Mr. Jones moved the adoption of his resolution, and when remarks were called Judge Hunter said that if the company did not accept he saw nothing to do but submit the question to a vote of the people.

W. E. Miller said he had a resolution on his desk which he had intended to introduce, not knowing that Mr.

MEYER & LINDORF

We give Sperry & Hutchinson Green Trading Stamps.

Jones had one. He thought the council ought to keep faith with the Water company. A special committee had been appointed and had reported on the condition of the plant, and that the franchise authorized the purchase of the plant at a price agreed upon between three appraisers, one each appointed by the company and council, these two to select a third. He was not therefore in favor of the Jones resolution.

A motion to refer the resolution however was lost, five nays, two yeas, the latter being Hunter and Miller.

Mr. Jones then again moved the adoption of this resolution, when Solicitor Smythe said that if the resolution were adopted, the city would have \$300,000 on its hands the 15th of next month for which it would have no use, arising from the sale of bonds, authorized at a special election and now being advertised for sale. This money was authorized for the erection by the city of a water works plant, and could not be used for the purchase of one. The \$300,000 would then be of no use and would merely be an interest-bearing debt.

Mr. Jones then withdrew his motion to adopt.

Judge Hunter then suggested that the clerk suspend the advertisement for bids for water works bonds.

W. E. Miller's resolution to employ a consulting engineer to report on the value of the present plant was referred to the committee on Board of Public Service.

Resolution by Mr. Moser that Board of Service ascertain cost of extending water mains in West Newark was adopted.

Resolution by Mr. Moser to investigate Granville street paving as to whether it was being done according to specifications was referred to street committee.

Judge Hunter introduced a resolution directing the clerk to suspend the publication of bids for water works bonds and withdraw the sale.

Solicitor Smythe said he did not believe this could legally be done, as the ordinance directed him so to advertise, and was mandatory. Solicitor Smythe then suggested that the ordinance to build a plant be repealed in its entirety, and one passed to purchase the present plant at an agreed price.

A resolution unsigned came to the Clerk's desk directing the Auditor to advertise for bids for \$300,000 water works bonds. It was laid on the table.

Council adjourned till next Monday night.
